Profile

Motivated and detail-oriented B.Sc. Information Technology graduate with hands-on experience in MERN Stack development and web application development. Skilled in HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, PHP, and MySQL. Developed real-world projects, including a Smart Medicine Reminder System, and completed a MERN Stack internship. Passionate about building responsive, user-friendly web applications and eager to contribute as a Full Stack Developer while continuously learning new technologies.

Work Experience

MDIDM Infoway

Jan 2026 - Present

Full Stack Developer Intern

Currently working as a Full Stack Developer Intern at MDIDM Infoway, where I develop responsive and user-friendly web applications using the MERN Stack. I work on frontend development with React.js, backend development using Node.js and Express.js, database management with MongoDB, REST API integration, authentication, debugging, and performance optimization. I also use Git for version control and follow clean coding practices while collaborating on real-world projects. This internship has strengthened my understanding of the complete web development lifecycle.

Education

12th(Commerce)

Jan 2022 - Apr 2023

Shree Divyjiyot Vidhyalay

Completed Higher Secondary Education (Commerce) from GSEB with a strong foundation in business studies, communication, analytical thinking, and problem-solving skills.

Bachelor of Science in Information Technology (B.Sc. IT)

Jun 2023 - Apr 2026

Harivandna College

Completed a Bachelor of Science in Information Technology with a strong foundation in web development, database management, programming, software engineering, and computer networking. During my studies, I worked on practical projects, including a Full Stack web application, which helped me develop problem-solving and technical skills.

Projects

Smart Medicine Reminder System

Full Stack Developer

Designed and developed a Smart Medicine Reminder System to help users manage their daily medications effectively. Built a responsive and user-friendly interface with secure user authentication, medicine scheduling, reminder management, and CRUD operations. Integrated frontend, backend, and database to provide a smooth user experience while improving my full stack development, problem-solving, and database management skills.

E-Commerce Clothing Website

Full Stack Developer

Developed a full-stack e-commerce clothing website using Python and modern web technologies. Built responsive product pages, user authentication, shopping cart, product management, and order features with a clean and user-friendly interface. Implemented smooth animations, including Locomotive Scroll, to enhance the browsing experience and optimized the application for performance across different devices.
